

HARIS KORDIĆ

B.S.C. SOFTWARE ENGINEERING

ABOUT ME

As a highly motivated and detail-oriented IT professional, I am seeking an opportunity where I can leverage my technical skills and academic background to contribute to projects. With a strong foundation in programming languages such as C#, JS, and Typescript, as well as experience in database management and website development, I am uniquely positioned to add value to any professional engineering team. I am eager to learn and grow in the fast-paced and constantly evolving field of technology. **Be sure to check out my [GitHub](#) portfolio with detailed information about my past projects.**

EXPERIENCE

FRONTEND SOFTWARE ENGINEER

[Pickleball.com](#) 15.06.2024. - present

- In this role I specialize in developing dynamic frontend UIs in web applications, focusing on Stripe online payment integrations.

FULL-STACK DEVELOPER

[InfoStudio d.o.o](#) 01.07.2023. - 14.06.2024.

- In this role, I specialize in developing dynamic full-stack web applications, particularly focusing on budgeting, microfinancing, and financing. I excel in building robust CRUD applications using RESTful APIs, with expertise in Express.js, Node.js, and Nest.js on the backend, and React.js and Next.js on the frontend, all packed in turbo repositories. I also leverage TypeORM, PostgreSQL, Oracle, and Material-UI (MUI). My work involves solving complex problems, implementing unique solutions and optimizations, applying modern architectural patterns, developing modern UI solutions, and deploying applications using Docker.

FULL-STACK INTERN

[InfoStudio d.o.o](#) 01.03.2023. - 01.7.2023.

- During my four-month full-stack internship, I developed a microfinance product using Nest.js, axios, and typeorm on the backend. On the frontend, I utilized Next.js, SWR, and MUI. This internship enhanced my skills in full application development and both backend and frontend technologies.
